Re: Open Space & Recreation Report

Judith,

The Leominster Disabilities Commission views the Open Space & Recreation ADA Self-Evaluation Report 2014-2021 as a valuable resource, now and into the future.

The twenty-eight listed properties in the report will allow us to continue working closely with other departments and commissions in the City of Leominster. By utilizing this working document, the Disabilities Commission will be able to keep pace with our primary goal; to make the City of Leominster a user-friendly community to all individuals.

We support the Open Space & Recreation ADA Self-Evaluation Report 2014-2021 in its entirety. The primary benefit of having such a document will be to continue to offer recommendations for upgrades to all of Leominster's resources.

We look forward to a positive working relationship with your department and staff.

Sincerely,

Patrick J. Aubuchon, Co-Chairman
Leominster Disability Commission
